SAKSHI GADHAVE

RPA Developer | Automation & Full-Stack (MERN)
sakshigadhave1403@gmail.com | +91-7385359071 | LinkedIn | GitHub | Pune, India

PROFESSIONAL SUMMARY

RPA and automation developer with 1 year of experience building enterprise workflows using Automation Anywhere A360, UiPath, and Power Automate. Cut manual effort by up to 85% and sped up hiring by 40% through Slack, Salesforce, and document-processing automations. Also build full-stack apps with React, Node.js, and MongoDB. UiPath certified. Looking for a Software or Automation Engineering role.

TECHNICAL SKILLS

Automation & RPA: Automation Anywhere A360, UiPath, Power Automate, Excel VBA/Macros, REST API Integration
Languages & Fundamentals: Java, C++, JavaScript, SQL, HTML, CSS, OOP, DSA
Frameworks & Libraries: React, Redux Toolkit, Node.js, Express.js, Tailwind CSS
Databases: MySQL, MongoDB, Excel (as Database)

PROFESSIONAL EXPERIENCE

RPA Developer | Xalta Technologies Pvt. Ltd., Pune *July 2025 – July 2026*

- Gathered requirements and built enterprise automation workflows using Automation Anywhere A360, UiPath, and Power Automate.
- Delivered Invoice Processing, Web Data Extraction, and Data Entry automations across Excel, Web, PDF, and Email.
- Built integrations with Microsoft Forms, SharePoint, and Outlook using REST APIs and JSON for data collection, approvals, and alerts.
- Handled testing, UAT, deployment, exception handling, and production support; maintained A360 Bot Runner and Control Room setups.
- Worked with developers and business teams to fix issues, document processes, and improve workflows.

PROJECTS

Slack–Salesforce Intelligent Recruitment Automation *A360, Slack/Salesforce APIs, IDP*

- Built an end-to-end pipeline: Slack resume intake → IDP extraction → skill matching → Salesforce candidate record, with duplicate checks.
- Let recruiters update status (shortlisted/rejected/on-hold) with Slack emoji reactions, synced to Salesforce instantly.
- Result: 85% less recruiter effort, 40% faster time-to-hire, zero duplicate entries.

UiPath Intelligent Invoice Processing *UiPath, Document Understanding, IXP*

- Built a pipeline: ingestion → classification → field extraction → validation → Excel output, with Human-in-the-Loop review for low-confidence data.
- Result: 40% less manual effort with zero unhandled document exceptions.

MelodyMusic – Music Sharing Platform *MERN Stack, Tailwind CSS*

- Built a MERN-stack app where singers upload their song covers and get noticed by the community.
- Let listeners discover new singers directly on the platform, with no need for Instagram or YouTube.
- Designed a smooth, responsive interface using React Hooks and Tailwind CSS.

Control Room Credential Manager *Power Automate, Forms, SharePoint, Teams, Outlook*

- Built a Power Automate Cloud tool for request-and-allocation workflows using Microsoft Forms, SharePoint Lists, Teams, and Outlook.
- Added validation against system-of-record data: 90–95% fewer process conflicts, 80–85% fewer manual follow-ups.

EDUCATION

B.Tech – Computer Science & Engineering | JSPM's Rajarshi Shahu College of Engineering, Pune *Jan 2021 – Jun 2025*
CGPA: 9.38 / 10
